Experience Design, User Interface Design,  
Graphic Design, Wireframes, Competitives  
Analysis, Personas, User Journeys, datas and  
metrics analysis. Some HTML/CSS/JS.

## TOOLS

Figma, Sketch, InVision, Illustrator, Photoshop,  
Principle to design.  
Visual Studio Code, Github to code.  
Google Analytics to analyze datas and metrics.

## TALENTS

- I'm a creative thinker obsessed with crafting the details.
  - I have a deep sense of empathy that give me the ambition to craft meaningful experience for people.
  - I always keep the users needs in mind when designing a product.
  - I love and embrace experimentation and I'm not afraid to be wrong.
  - I'm passionate about design.
- Beautiful design is one thing. Beautiful and intuitive design is what I aim for.
